Taiwan-Japan Joint Workshop on
Multiple Zeta Values

Date 2018.8.2-5

Venue R202, Astro-Math Bldg.,NTU

Aim & Scope

This is a bilateral joint program supported by NCTS and JSPS. The main purpose of this joint workshop is to invite some active researchers working on multiple zeta values, and to seek more cooperation between Taiwan and Japan in the future.

Invited Speakers

Chieh-Yu Chang	National Tsing Hua University
Hidekazu Furusho	Nagoya University
Ryotaro Harada	Nagoya University
Minoru Hirose	Kyushu University
Wei-Cheng Huang	National Center for Theoretical Sciences
Ken Kamano	Osaka Institute of Technology
Yen-Liang Kuan	Chinese University of Hong Kong
Yoshinori Mishiba	Fukuoka Institute of Technology
Masataka Ono	Keio University
Shingo Saito	Kyushu University
Kenji Sakugawa	Kyoto University RIMS
Nobuo Sato	National Center for Theoretical Sciences
Shinichiro Seki	Tohoku University
Tatsushi Tanaka	Kyoto Sangyo University
Koji Tasaka	Aichi Prefectural University
Jing Yu	National Taiwan Univerisity

Organizers

Chieh-Yu Chang	National Tsing Hua University
Masanobu Kaneko	Kyushu University
Jing Yu	National Taiwan Univerisity

$$\zeta(2) = \int_{0 \le t_1 \le t_2 \le 1} \frac{dt_1}{1 - t_1}\frac{dt_2}{t_2}$$
