

# 2019 NCTS Workshop on Dynamical Systems

Date | **23-25 May, 2019**  
Venue | National Center for Theoretical Sciences

## Aim & Scope

The “2019 Workshop on Dynamical Systems” will take place on 23-25 May 2019 at National Center for Theoretical Sciences of Taiwan. This workshop includes around ten 50-minute presentations and two 2-hour mini-courses. This workshop has been hosted each May since 2001 by NCTS. The aim of this annual workshop is to bring together active researchers from various fields of dynamical systems, to discuss recent and prospective advances in research. This year we have arranged talks centered on ergodic theory, fractal geometry, arithmetic dynamics, complex dynamics and differential equations.

## Invited Speakers

<b>Yun-Ping Jiang</b>	City University of New York
<b>Lien-Yung Kao</b>	The University of Chicago
<b>Tomoki Kawahira</b>	Tokyo Institute of Technology
<b>Bing Li</b>	South China University of Technology
<b>Zeng Lian</b>	Sichuan University
<b>Yu-Hao Liang</b>	National University of Kaohsiung
<b>Lingmin Liao</b>	University Paris-East Creteil
<b>Russell Lodge</b>	Indiana State University
<b>Ruxi Shi</b>	Oulu University
<b>Jui-Pin Tseng</b>	National Chengchi University
<b>Feng-Bin Wang</b>	Chang Gung University
<b>Meng Wu</b>	University of Oulu

## Organizers

<b>Jung-Chao Ban</b>	National Cheng-Chi University
<b>Chih-Hung Chang</b>	National University of Kaohsiung
<b>Kuo-Chang Chen</b>	National Tsing-Hua University
<b>Yi-Chiuan Chen</b>	Academia Sinica
<b>Cheng-Hsiung Hsu</b>	National Central University
