

2020 Symposium for Young Analysts

Date

2020.12.18

Venue

M107, Hong-Jing Hall, NCU

Aim & Scope

The 2020 Symposium for Young Analysts aims to afford opportunities for young researchers and students who have received or shortly master's or doctoral degrees in mathematical analysis, to present their academic works, stimulate knowledge growth of mathematics, and acquire recent research tendencies. This sort of colloquia has been held numerous times in the past and contributed plenty of aids to inspire young people doing theoretical researches and create closed interactions within the analysis community in Taiwan.

Invited Speakers
