

# NCTS (Central Taiwan) Computational Mathematics Workshop

Date | April 30, 2021  
Venue | U501, NCHU

## Aim & Scope

The NCTS workshop aims to provide one academic discussion platform on the theory and application of computational mathematics. We will focus on the application of various Arnoldi algorithms, including circuit simulations. Topics include matrix exponentials, model order reduction and quadratic eigenvalue problem.

## Invited Speakers

**Yung-Ta Li**

Fu Jen Catholic University

**Pengwen Chen**

National Chung Hsing University

**Yueh-Cheng Kuo**

National University of Kaohsiung

## Organizers

**Pengwen Chen**

National Chung Hsing University

**Po-Wen Hsieh**

National Chung Hsing University

**NCTS**  
National Center for Theoretical Sciences
