

2023 NCTS Spring Day

Date: Mar. 13 (Mon.) , 2023

Venue: R515/R509 Cosmology Bldg. ,NTU

Aim & Scope

NCTS is a leading mathematical research center aiming to promote cutting-edge mathematical research and to cultivate young talents. The NCTS postdoc program has attracted many young mathematicians to start their academic career here at NCTS. Other than the Taipei postdoc seminar which provides a platform for postdoc fellows to have long-presentations, we also organize Spring Day each year for postdoc fellows to give short presentations on their research results and interests. We hope that this event will lead to further interactions between NCTS postdoc fellows. Another effort we make to encourage young researchers is the NCTS Young Theoretical Scientist Award. This Award will be given to promising young faculties who are aiming for frontier challenges. We will have the Award Ceremony in 2023 NCTS Spring Day as well.

Invited Speaker

Iacopo Brivio
Yen-An Chen
Shih-Hsin Chen
Chien-Hua Chen
Sheng-Fu Chiu
Huy Quoc Dang
Simon-Raphaël Fischer
Brian Harvie

Seonghyeon Jeong
Yoshinori Kamijima
Bin Nguyen
Jun-Wen Peng
Prasun Roychowdhury
Marco Sutti
Yasuhiro Terakado
Ryo Yamagishi

& NCTS Young Theoretical Scientist Awardee(s)

Organizer

Yng-Ing Lee (NTU & NCTS)
