The Korea-Taiwan-Vietnam Joint Meeting on Discrete Geometry and Geometric Measure Theory

Date: 2023/07/17-19

Venue: Vietnam Institute for Advanced Study in Mathematics, Hanoi, Vietnam

Aim & Scope:

We aim to invite researchers to present results in which Combinatorics and Analysis interact in an interesting fashion. The purposes are to bring experts to share their research results and get them to know each other and stimulate joint works.

Keynote Speakers

Alex Iosevich	University of Rochester
Pertti Mattila	University of Helsinki

Invited Speakers

Changhao Chen	Anhui University
Daewoong Cheong	Chungbuk National University, Korea
Do Trong Hoang	Hanoi University of Science and Technology
Duc Anh Hoang	Vietnam National University, Hanoi
Nguyen Huu Hoi	The Ohio State University
Ngo Trung Hieu	Vietnam Institute of Mathematics
Jaehoon Kim	Korea Advanced Institute of Science and Technology
Minki Kim	Division of Liberal Arts and Sciences at GIST, Gwangju, Korea
Hsin-Hao Lai	National Kaohsiung Normal University, Taiwan
Wei-Tian Li	National Chung Hsing University, Taiwan
Ben Lund	IBS, Discrete Mathematics group, Korea
Bochen Liu	Southern University of Science and Technology in Shenzhen
Eyvi Palsson	Virginia Tech
Minh Quy Pham	University of Rochester
Oliver Roche-Newton	Johannes Kepler Universität
Steven Senger	Missouri State University
Audie Warren	Johann Radon Institute for Computational and Applied Mathematics
Boqing Xue	Institute of Mathematical Sciences, ShanghaiTech University

Organizers

Alex Iosevich	University of Rochester, USA
Le Minh Ha	Vietnam Institute for Advanced Study in Mathematics
Doowon Koh	Chungbuk National University, Korea
Thang Pham	Vietnam National University Hanoi
Chun-Yen Shen	National Taiwan University
Le Anh Vinh	Vietnam Institute of Educational Science
