**Venue: R515, Cosmology Bldg., NTU,
National Center for Theoretical Sciences**

Aim & Scope:

The purpose of the Taiwan-Japan Joint Conference on Differential Geometry is to develop collaboration, foster discussions and interactions between the differential geometry communities of Taiwan and Japan. We plan to have this conference every two years. The first conference was held at Waseda University in December 2016, the second conference was held at National Center of Theoretical Sciences, in November 2019, and the third was held online in November 2021. The fourth conference will be held at National Center of Theoretical Sciences, National Taiwan University, Taiwan, November 6th-9th 2023. (Monday-Thursday).
