

Workshop on

Nonlinear Partial Differential Equations

Date

2024.4.8-10

Venue

R515 Cosmology
Bldg., NTU

Aim & Scope

The workshop will bring together leading international researchers on nonlinear partial differential equations, as well as researchers in Taiwan, in particular junior researchers, to report and discuss recent developments, exchange ideas, and foster or strengthen collaborations. Some of the topics covered in this meeting include long-time dynamics and singularity formation in conservation laws, fluid mechanics, and nonlinear parabolic and dispersive problems.

Invited Speakers

Victor Aguilar	National Taiwan University
Hantaek Bae	Ulsan National Institute of Science & Technology
Siao Hao Guo	National Taiwan University
Kin Ming Hui	Academia Sinica
Soonsik Kwon	KAIST
Donghyun Lee	Postech
Tai-Ping Liu	Stanford University & Academia Sinica
Robert Marangell	University of Sydney
Hiroyoshi Mitake	University of Tokyo
Kenji Nakanishi	Kyoto University
Takashi Suzuki	Osaka University
Zhian Wang	Hong Kong Polytechnic University
Kung-Chien Wu	National Cheng Kung University
Chang-Hong Wu	National Yang Ming Chiao Tung University
Yong Yu	Chinese University of Hong Kong

Organizers

Charles Collot
CY Cergy Paris University
Van Tien Nguyen
National Taiwan University
