2018 NCTS Summer Course: Introduction to 3-manifold Topology with some Applications to Knot Theory

Speaker:

C. Michael Tsau (Saint Louis University)

This course teaches fundamentals of 3-manifold topology, which lays the foundation for further in this and other areas involving topology and differentiable manifolds. It also provides general knowledge for the techniques used in the study of 3-manifolds topology.

Time 2018/7/9-7/20 (Mon., Wed. and Fri.)
14:00 - 17:00

Venue Room 714, Astro-Math Bldg., NTU

Organizers:
Jih-Hsin Cheng (Academia Sinica)
