2018 NCTS Summer Course: Mathematical Problems Arising in Materials Science

Speaker:

Petr Plechac (University of Delaware)

Miao-Jung Yvonne Ou (University of Delaware)

In this course, we will focus on the mathematical problems arising from the study of materials and their interplay with other topics in complex function theory, operator theory, homogenization theory and stochastic analysis.

Time 2018/7/16, 7/23, 7/25, 7/27, 7/30
10:20-12:10 Lecture
12:10-13:20 Lunch and Discussion
13:20-14:10 Lecture

Venue Room 201, NCTS
Astro-Math Bldg., NTU

Organizers:

Tai-Chia Lin (NTU)
